

## Responses from People Before Profit (In Bold)

1. Will your party fully support the concept and practice of power sharing as envisaged and outlined in the Good Friday Agreement? **PBP believes that the concept and practice of power sharing as outlined in the GFA is not fit for purpose, as has been demonstrated on many occasions and needs to be changed to reflect the fact that over a third of NI's population is neither nationalist nor unionist**
2. Should the UK leaving the EU as proposed by the UK government, will your party in the Assembly support the transposition of progressive EU Directives concerning matters within the competency of the Executive/devolved Assembly, such as employments rights? **Of course**
3. Will your party support the mitigations around welfare 'reform', in particular on matters such as the Bedroom Tax, and do you agree that given the particular circumstances that arise in Northern Ireland, any such welfare 'reform' must be implemented differently? **PBP will work to abolish the Bedroom Tax which will cost the public purse no more than paying "mitigations". We have campaigned for the particular circumstances of NI to be taken into account in relation to welfare reform**
4. Will you support the creation of decent and quality jobs through the development and implementation of an industrial strategy for Northern Ireland taking into account the interests and concerns of the trade union movement and many employers and placing the creation of decent and quality jobs with the skills agenda at the heart of such a strategy? **Of course**
5. Will your party support the work of the Northern Ireland Housing Executive and promote the building of more social housing using the criteria of objective need? **Yes, we have been campaigning around support for the NIHE for some years now and we want to see more social housing built and allocated on the basis of objective need**
6. Will your party support the full expression of a shared society by supporting the implementation of a Bill of Rights in Northern Ireland? **Of course**
