Founded by the Labour government in the 1960's, The Open University (The OU) opens up higher education to all, regardless of background or circumstances.

Today, The OU works in partnership with NIC ICTU to extend higher education to union members. The partnership is embodied in a Memorandum of Understanding (MOU), signed by both organisations.

The OU offers more than 600 courses, covering a wide range of fascinating subjects. No matter where you are, who you are, or what you do, you can study with The OU.

If you want to study with The OU but you're not quite sure you are ready, an OU Access Module is the ideal way to prepare. You may even be able to study for free.
